Dear Mr, Sir

Several months ago before I ~~had~~ ^{received} the application patent number 11/589,781, I've written a letter of concern. I've ^{and certainly termination} ask you to terminate ~~that~~ ^{all} of my files. I've also stated ~~that~~ I will retrieve ^{my} and ~~the~~ ^{re} all previous paper work as for references. I ~~now~~ know exactly what to do and I fully understand now you want me to fabricate the structure of my format. Previously, I didn't take the guide book information into consideration, I believe the guide book were design for individuals who were totally ignorant of the development of a patent. I believe this didn't apply to me. I simply patent my work the way I wanted to. I really felt this was the right thing for me to do for as long as I was able to patent my work in a free lands style. I need to postpone the desire of ~~filling~~ ^{filling} a patent application. Money is very tight. I receive one entitlement only. I need to get myself together by obtaining and sustaining a job. In the future I will reapply for a patent.

Salomon S. Rose
